Information regarding Childcare Allowance

If you are planning to make use of our day care centre or After-School Care services, you can ask the Tax and Customs Office (de Belastingdienst) for Childcare Allowance. Childcare allowance consists of a government contribution, which is determined by your total gross joint income and the number of children within a family that make use of childcare. Furthermore, this contribution depends on the costs of the day care or after-school care.

How do you apply for it?

You can apply for childcare allowance online via www.toeslagen.nl, using your personal DigiD. Please ensure that you submit your application to the Tax and Customs Office no later than eight weeks before the desired month of payment. If you are eligible for the allowance, the Tax and Customs Office will pay this allowance in monthly instalments. Whilst completing the application form, you can specify whether you want the childcare allowance to be paid into your own account or to that of CompaNanny. If you choose to have the allowance paid directly to CompaNanny, we will offset this against your childcare costs in your monthly invoice. The Tax and Customs Office pays the childcare allowance in advance, and usually do so within eight weeks of your application having been submitted. As of 1 January 2014, retroactive childcare allowance can be applied for, with a limit of three months. This means that you can only apply for childcare allowance as of the month in which you submit your application and for the three preceding months.
